NO TRACE YET OF MYSTERIOUS AUTOMOBILE.
New London Authorities Still Searching for Other Car in Fenner Accident.

The New London authorities have not yet located the machine which was ahead of the Fenner car last Thursday night on Mallory Hill when the accident occurred that caused the death of G. P. Fenner and J. Hudson Thomas. Saturday afternoon State Attorney Hall questioned Leroy B. Howard of Golden street, who had been known to say that he knew the occupants of the car, but denied any knowledge of the identity of the car or its occupants to the state attorney and he was released.

Howard had said that John Fitzgerald, a local chauffeur, was the driver of the car, and Fitzgerald was also brought before the state attorney. He was allowed to go, however, after being questioned. Another young man by the same name, whose home is in Attleboro, and who is employed in a local garage, was also questioned, but succeeded in showing that he was not implicated.

PRESIDENT OF UNCAS BANK

Arthur D. Lathrop Elected—He Succeeds Wallace S. Allis, Who Presented Resignation Last July Because of Poor Health—William H. Allen Elected First Vice President.

chosen president to succeed Mr. Allis. William H. Allen was elected first vice president to succeed Mr. Lathrop who formerly held that position. The vacancy on the board of directors caused by Mr. Allis' resignation, was not filled on account of the business of the annual meeting. The finance committee now consists of President Lathrop, Vice President Allen, and Calvin H. Frisbie.

Mr. Lathrop was elected a director of the bank on January 1, 1901, and on January 16, 1911 he was elected vice president.

At the meeting of the directors on July 19, Mr. Allen was granted a six months' vacation, the board hoping that upon his return from his summer vacation, where brief excursions will be made, that he would be able to continue as president of the bank. When his return was notified, it was noted that it would be impossible for him to serve the bank any longer and it was with reluctance that the resignation was accepted.

For a number of years Mr. Allen has been a director of the bank and on January 19, 1911 he was elected as vice president and elected as president on January 13, 1901. He was ever deeply interested in the welfare of the bank and gave much of his time to the institution. His wise counsel and good judgment were highly valued by the directors. During the last few years the bank has shown wonderful growth and at the present time is in excellent condition.

PARTY LINE COURTESY.
Monopoly of Line Shows Little Thought For Others.

The new Telephone Directory contains the following suggestive reminder:

Party line service is satisfactory when those who use it are considerate of each other's rights. Party line subscribers have equal rights to their line. It is unfair for one user to monopolize a party line, and such misuse shows a lack of consideration for others. A wise custom has established a five-minute limit for the continuous use of a party line. Experience shows that five minutes is ample time to complete an ordinary telephone conversation. It is, therefore, plain justice to relinquish a party line after five minutes' use, calling again if necessary. Observe the Golden Rule.

He desires to give the employees, who might be superseded, ample time to secure other positions. It should be noted that changes in the position of special agent, filed by George A. WILD POSIES.
Title of Volume From the Pen of John Troland Which Has Just Been Published.

John Troland of this city, whose thoughtful poems have long since disappeared from the pages of the country, has appeared in leading magazines and papers of the country, has assembled them in an attractive volume of 200 pages under the title of Wild Posies, dedicated to his wife and all lovers of nature. They cover a wide variety of subjects, all reflecting the skill of the author. As has been so well said of the volume, "it is a trifle yet not a trifle, it is not made, and it is equally true of poetry. There is the same difference existing between the natural and the artificial flower. While both are beautiful and in appearance true to form and color, yet one is the product of nature, and the other responds to the inner perceptions which the other lacks."

The collection is not a Te Deum from the clatter nor an echo from the lyceum, but a blend of voices from the busy haunts of life and nature. There is neither the wall of the disappointed dreamer nor the over-extended pen of the theorist, but in all the genuine ring of one who has caught the poetic vision and the muse's gift to express the belief that "the workmanman with which the gold is wrought."

Adds yet auster to the finest gold. The work is clearly distinguished for its variety and method of treatment, which everywhere—the cleavage to which the work is dedicated.

The poems are grouped under ten divisions which are: Wild Posies, The Muse, Manhood, Toils, Muse, Days, To the Sea, On the Farm, Pandora's Box, Love Calendar, and in Memoriam, numbering in all 125.

The cloth bound volume with gilt top is published by Sherman, French & Company of Boston and the price is \$1.25.

OTIS LIBRARY NOTES.
New Books Added—Some Bought and Some Presented.

Owing to the many calls made for "Machinists" has been recommended among the monthly publications. The Tyler Genealogy, in two volumes, has been presented to the library by Rollin U. Tyler of Tyngville, Conn.

A book of poems, Wild Posies, written by John Troland of this city, has been purchased by the library. A Social and Industrial History of England, by P. W. Ticknor, published in 1915, has been added.

Sixty-nine visitors enjoyed the reading room Sunday.
